Speakers are located throughout the home, and the Living Room TV is ready for your content.

- **TV Casting:** The TV is a Chromecast device. You can cast from all your favorite streaming accounts directly to the television. Simply ensure your phone is on the WiFi, click the "Cast" icon in your preferred app (Netflix, YouTube, etc.), and select "Living Room TV" to enjoy.

- **Flexibility:** You can play music on individual speakers or sync them as a group for a full-house experience. Individual devices or speaker groups should be selected from your preferred music app, or from the tablet. If you want to connect to a specific device via Bluetooth, just say, "Hey Google, connect Bluetooth" and pair your device. Speaker groups are not accessible via Bluetooth.
